DETAILED ACTION

Response to Arguments

1. In view of the amendment filed on 06/01/2005, the finality of the Office Action mailed on 03/31/2005 is withdrawn and prosecution is reopened. The indicated allowability of the claims is hereby withdrawn.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I, a mirror wherein the display is secured to a frame by strut means;

Species II, a mirror including a radio receiver module for the image data;

Species III, a mirror wherein behind the mirror surface at least one loudspeaker is connected to an input device;

Species IV, a mirror wherein the display includes hologram.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim appears generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
